Project Title: Zero Website

I'd like to build this site as multiple pages, rather than a long, single page website. Typical site navigation probably across the top. I think there is plenty of content and photography to build out individual pages.

- **Home Page/Introduction** – Introduce the concept of zero and why the number is so interesting.
- **History**
- **Mathematics**
- **Science**
- **Modern Usage**

- **Sources** – https://en.wikipedia.org/wiki/0
